

Trading Feathercoins

As any other cryptocurrency, Feathercoin trading is possible 24/7 from any device with a working internet connection. You can buy and sell your feathers for other cryptocurrencies or fiat and we are actively working to get listed on more exchanges to make it easier for anybody to join our community!

Feathercoin is already tradeable on the following platforms. We recommend using a wallet to store your coins – either on desktop wallets like [Electrum](#) (you can use this in combination with the [BitBox](#) hardware wallet for extra security) or mobile apps like Edge ([Android/iOS](#)) or Coinomi ([Android/iOS](#)).

Website	Trading Pair	Remarks
